

Members of LÍFSVERND believe that unborn children have an inalienable right to life from conception and absolutely no circumstances can justify abortion.

Members of LÍFSVERND are asked to say a prayer daily for unborn children, and also to wear always a pin called "precious feet".

The Precious Feet.

Some 90% of abortions in the United States occur in the first twelve weeks of pregnancy. Most people still have no idea how well developed the preborn child is at the time when these abortions occur.

The Precious Feet pin shows the exact size and shape of a preborn child's feet at ten weeks after conception. It is an attractive and instructive pin, showing people, in a single glance, that the victim of abortion is one of us. The pin provides an excellent discussion-starter. Children also love to wear it, and in this way can bring the pro-life message to their own parents.

Prayer for ending of abortions

Heavenly Father,
We pray for the unborn babies scheduled to die this week through abortion. Save them from death. Give new hope to their parents, that they will turn away from this desperate act.
Grant conversion to the abortionists. Show us how to respond to the bloodshed in our midst.
We make this prayer through Jesus your Son. Amen.
